University City Community Vision
Task Force Meeting Notes
6:00pm – 6:30pm
November 29, 2021

Attendees: Ed Acosta**,** Dianne Benjamin, Dennis Fuller, Sandra Hewitt, Peggy Holly, Bobette Patton, James Wilke, David Beurle, Heather Branigin

Peggy reviewed how the Task Force was formed and its purpose.

Introductions – all Task Force members introduced themselves.

Future iQ will contact each Task Force member for a short interview in the coming weeks to get to know each member and to gather information for the portal. Future iQ will create a portal tab introducing the members and the purpose of the Task Force for the project.

Note that City Council is adding a school board member to the Task Force membership.

Discussion Boards discussion – Future iQ introduced the concept of the Discussion Boards for the project portal and asked the Task Force for ideas for topics. Potential topics included:

- Future of the education system
- Sustainability
- Public spaces, amenities and accessibility
- Seniors and active learning
- Commercial development
- Olive Boulevard development
- Distribution of people across the community/social fabric

It was noted that youth need to be purposefully involved in the visioning process. Future iQ will include high school students in the visioning process. The Discussion Board topics will be rolled out on the portal one by one (one a week) so as not to overwhelm people.

The topic for discussion at the next Task Force meeting will be project outreach – what platforms to use to reach as many people as possible. Task Force members were asked to come with ideas and suggestions.

Next Task Force meeting: Tuesday, December 21, 6:00pm-7:00pm
