HELP US LAUNCH THE STRATEGIC ACTION PLAN

The Lorain County Strategic Action Plan Project process has included extensive research and community engagement. The community engagement began in August 2023 and has included a survey with almost 1500 respondents, a 2-day Think-Tank workshop, 9 Countywide workshops and 6 Focus Groups.

Over the past number of years, Lorain County has seen economic growth, enormous investment, job creation and retention and dedication to higher educational attainment and businesses being headquartered in Lorain County. This robust, comprehensive, and sustainable Strategic Action Plan will position Lorain County on a continued path of a diverse, resilient, and vibrant community.

Join us at the Reaser Grand Room of the Spitzer Conference Center at Lorain County Community College to celebrate the conclusion of the planning process and help us prioritize the next actions.
